PRODUCTS WITH A REPUTATION YOU TRUST

## WE HAVE THE PRODUCTS YOU NEED, ALL IN ONE PLACE.

Mustad is a family of companies and leading brands that is rich in heritage and tradition; offering the farrier industry the finest products. We are proud of our investment in farrier-related interests and our ongoing commitment to farrier schools, along with our worldwide sponsorship and participation in industry events and contests. The feedback we receive via e-mail, letters, and phone calls is invaluable as a means to improve our products and services. Many of the changes that have taken place over the past several years to our nails, shoes, and tools are the direct result of ideas from farriers on what they need to more efficiently do their job.

### Capewell Horseshoe nails

---

Inventor George J. Capewell established an automated production process to more efficiently manufacture horseshoe nails than the conventional method of laborious hot forging by hand. Soon after the formation of the company in 1881, farriers made Capewell the leading brand of horseshoe nails in America. As its tradition has been for over 135 years, Capewell continues to improve the quality and selection of its products, the variety of sizes and services to its customers. That's why Capewell remains the leading brand in horseshoe nails today. Capewell. For farriers since 1881.

### St. Croix Forge Horseshoes

---

The founders of St. Croix Forge set out to build a better horseshoe to make the farriers job more efficient. Shortly after the introduction of their horseshoes, farriers made St. Croix Forge the most widely used horseshoe brand in North America.

St. Croix Forge is today known for products that are easy to use, which help make the farrier's job easier and horses' athletic work more efficient.

Whether a simple shoe for a trail horse, clipped shoes for a jumper, or aluminum racing plates, SCF workmanship and forging excellence is appreciated by everyone who uses them.

### Mustad

---

From its pre-industrial Norwegian origins in 1832 and its early days through 1860 in the small village of Gjøvik, Mustad grew to become one of the leading suppliers of small metal products. In particular items made from steel wire, such as horseshoe nails, propelled Mustad in to the horse/hoofcare industry. Mustad developed advanced machinery for the automatic production of horseshoe nails. This technological breakthrough led to a rapid expansion of business largely through exports to various European countries. Today Mustad Branded products range from horseshoe nails, horseshoes and farrier tools to therapeutic shoes for horses. Mustad is active in nearly 100 countries worldwide, offering some of the highest quality products on the market for over 189 years.

### Heller Rasps

---

In the Mid-1800's an enterprising German immigrant named Elias Heller started his own small shop in Newark, New Jersey. By the mid-1860's, three of Elias's sons - Elias George, Peter, and Lewis - entered the business and worked to build upon what their father started. Under their leadership, and for the next three generations, Heller became a leader among tool manufacturers by automating production of high quality files and rasps.

In 1955, Simonds acquired Heller Bros. For the next fifty years they produced rasps before deciding to focus on other categories of tools and leave the rasp business in 2006. That year, Mustad acquired the rasp assets and organized the products around the origins of the Heller Brand, building on Simonds contributions. Today, farriers continue to count on the strong heritage and tradition of quality rasps such as the Legend, Red Tang, Blackmaster, Big Hoof, Gr8at Rasps and the eXceL series which are manufactured under the Heller International brand.

### Delta

---

Delta started as a family operation in 1984 and consisted of horseshoe nails, horseshoes, and tools. All Delta products are designed with farriers to meet the highest standards in a demanding industry. Over the years, Delta has expanded to build a strong brand presence in Hoof Power Supplements and Delta Hoof Boots. Delta has a history of working closely with farriers, which has led the brand to manufacture a wide variety of solid products.

### CrossOver

The CrossOver features the latest in horseshoe technology, Variable Pitched Nails (VPN). What that means is that the nail holes have more pitch in the toe and become straighter towards the heel, following the natural angle of the hoof.

- Designed with a variable pitch
- Recommended nails: SB 6, CH 5, Concave 3, MX45
- Packaging: Box of 10 pairs
- Longer narrower shape is well suited for a variety of horse breeds
- This 8mm shoe features a deep fullering

#### Options Available

Side Clips	Front
Sizes	1-4
Toe Clip	Front
Sizes	1-4
Unclipped	Front
Sizes	0-4
Quarter	
Clipped	Hind
Size	0-4

## Eventer - Front & Hind

The Eventer design provides the protection and support of a wide web shoe with the breakover, and traction of a rim shoe. The heel shape allows for a tight fit while still providing enough material for support and studs when required. The front and hind shapes typically require minimal shaping.

- Rolled-toe shoe
- Concave hoof surface
- Graduated thickness
- Suggested nail:  
Size 000 / 4.5 RN  
Size 00-3 / CH 5  
Size 4 / CH 6

### Options Available

Side Clips	Front & Hind
Sizes	000-4
Unclipped	Front & Hind
Sizes	000-4
Toe Clip	Front
Size	2
Weight	Regular
Pkg.	20pr/box
	3-4; 10pr/box
Clip Pkg.	10pr/box

## Xtra

That extra something, forged into a shoe. Extra width, extra protection, perfect for "in-between" sized feet.

- Extra wide, extra protection
- Perfect for in-between sized hooves
- Suggested nail size: CH 5
- The generic pattern allows the shoe to easily shape for front or hind feet.

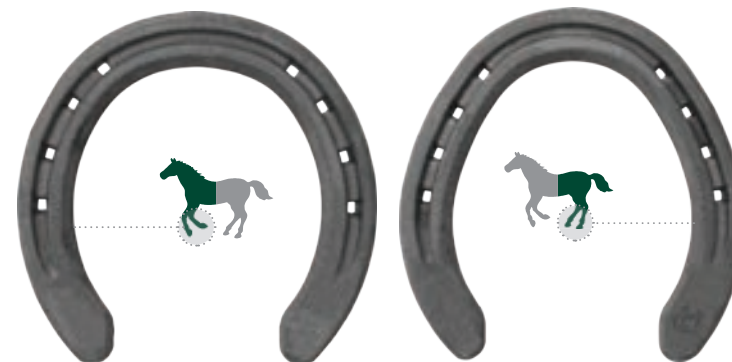

### Options Available

Unclipped	Front & Hind
Sizes	00-5
Toe Clip	Front & Hind
Sizes	0-5
Weight	Regular
Pkg.	00-2; 20pr/box
	3-5; 10pr/box

## Eventer PLUS - Front & Hind

Wider web provides added support, full crease contributes to improved traction. Symmetrical front, left and right hind patterns.

### Options Available

Side Clips	Front & Hind
Sizes	0-4
Unclipped	Front & Hind
Sizes	0-3
Weight	Regular
Pkg.	0-1; 20pr/box
Clip Pkg.	2-4; 10pr/box
	10pr/box

- For thicker hoof walls
- Lateral hind branches slightly longer and wider
- Suggested nail:  
Size 0-1 / CH 5  
Size 2-4 / CH 6

## PLUS Shoe Improvements:

- Left and right hind pattern with support fit heels
- Lateral hind branches slightly longer and wider
- Finished boxed heels on hoof surface
- Sole pressure relief
- Wider web and thickness appropriate to the size of the shoe
- Improved crease for perfect nail locking
- Front and Hind shoes come with side clips only

Clipped shoes

Finished boxed heels

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

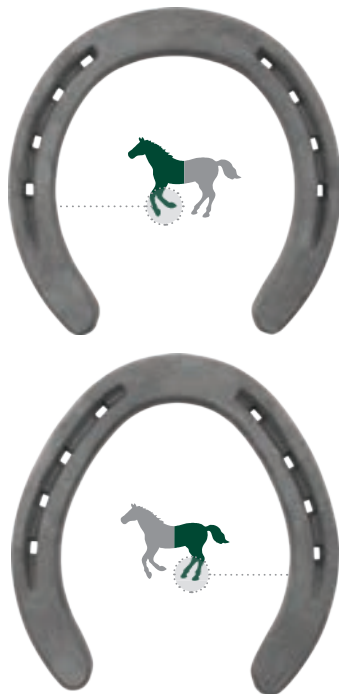

### SureFit

These shoes are based on the popular line of Lite shoes, in a front and hind pattern with a **V-crease**.

- V-crease for better nail positioning
- Web grows with the size of the shoe
- Available with side clips
- Suggested nail size: CH 5
- Reduce time on the anvil
- Sole pressure relief
- Finished heels
- Suggested nail size: CH 5

#### Options Available

Unclipped	Front & Hind
Sizes	000-1
Side Clips	Hind
Sizes	00-2
Weight	Lite
Pkg.	20pr/box
Clip Pkg.	10pr/box

### SureFit Rim

Same features and benefits as our other Surefit shoes but the Rim allows for maximum traction. Upright edges minimize slippage in turns while maximizing push off and upright full heels allow for maximum support.

- V-crease for better nail positioning
- Rim allows for maximum traction
- Suggested nail size: Capewell - CH 5
- Upright edges minimize slippage while maximizing push off
- Upright full heels allow for maximum support

#### Options Available

Front & Hind	
Sizes	00-1
Weight	Lite
Pkg.	20pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

### EZ - Front & Hind

The EZ is a front and hind shaped wide web shoe providing additional support for the hoof and limb. The wider section of steel and optimal shape allow for easy modification.

- Wider web provides great hoof protection
- Suggested nail: Size 00-3 / CH 5  
Size 4 / CH 6

#### Options Available

Side Clips	Front & Hind
Sizes	00-4
Unclipped	Front & Hind
Sizes	00-4
Toe Clip	Front
Sizes	1-3
Weight	Regular
Pkg.	00-2; 20pr/box 3-4; 10pr/box
Clip Pkg.	10pr/box

### EZ PLUS Front & Hind

EZ Plus offers a wider web for additional support and boxed heels to save time. The fronts are symmetrical, while the hinds come in a left and right pattern with added length in the outside branch. Using a deep "V" crease to secure the nail, this shoe is punched for an SB5 nail.

- V-crease
- Safer locking of nail head into shoe
- Better nail positioning
- Extreme durability
- Excellent support
- Added protection
- Heavier than a standard shoe

#### Options Available

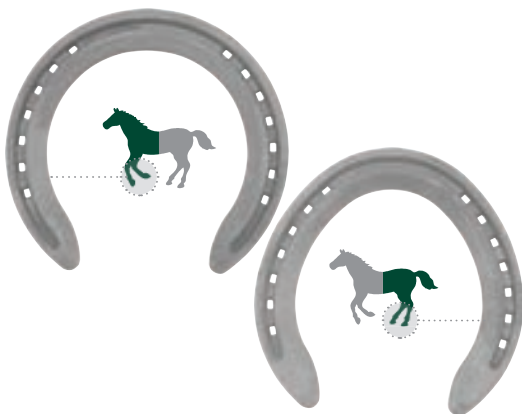

Unclipped	Front & Hind
Sizes	0-1; 20pr/box 2-3; 10pr/box
Side Clips	Front & hind
Sizes	0-2; 10pr/box
Weight	Regular

## Concorde - Front & Hind

The Steel Concorde was designed with the same features that have made the Eventers one of the most popular shoes, but in a lighter version. It is a good alternative for those who look for a stronger and more durable option to the aluminum shoes.

Toe Clip

### Options Available

Unclipped Front	3-8; 10pr/box
Unclipped Hind	3-7; 10pr/box
Toe clip hind	3-6; 10pr/box
Weight	Lite

## Polo Front

Traction, turns, and enhanced breakover, carefully engineered.

- Signature higher inside rim
- Also available in a compromised pattern (regular).
- Suggested nail size: SB 5  
Original Polo: 00-1  
00 / RN 4.5  
0-1 / PS 5

### Options Available

Front	00-1
Regular	0-1
Pkg.	20pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

## Plain

This shoe became an industry standard for a solid everyday application. The generic pattern allows for easy front or hind shaping while the dimensions offer excellent durability and reset options.

This is America's basic flat creased horseshoe, designed for versatile use wherever you shoe.

### Options Available

Sizes	000-3
Weight	Reg or Lite
Pkg.	20pr/box 3; 10pr/box

- Designed for versatile use
- Suggested nail size: CH 5

## Ultra Lite Rim

### Options Available

Sizes	000-2
Pkg.	20pr/box

Provides exceptional traction in a super light weight all purpose shoe. Built on the successful Plain Lite Rim shoe and nail pattern, this reduced weight and increased traction shoe is ideal when shoe weight is a primary concern. The generic shape is easy to modify and features a crease from heel to heel.

- Thin as a training plate
- Forged for strength
- Full crease & rolled toe
- Suggested nail:  
Size: 000-00 / RN 4.5  
Size: 0-2 / RN 5
- Available in toe clip (000-0)

## Lite V-Crease

Take the proven design of the Plain and make it slightly thinner to reduce some weight, and you have the Lite V-crease.

The generic pattern is easily shaped into a front or hind. This shoe features a V-crease to improve nail-to-shoe contact for a more secure fit.

- V-crease design for optimized nail fit and pitch
- Sole relief
- Full crease

- Punched for CH5
- Generic pattern
- Sizes: 000-4

## Lite Rim V-Crease

Provides exceptional traction in a lightweight all-purpose shoe. Built on the successful St. Croix Forge plain shoe and nail pattern, this reduced weight and increased traction shoe is a favorite among western sport horses. Features a rolled toe which eases breakover.

- V-crease design for optimized nail fit and pitch
- Sole relief
- Full crease
- Sizes: 000-2

## Rim V-Crease

This Rim shoe has a V-crease from heel to heel with softened outer edges and a slight rolled toe. The V-crease greatly improves nail-to-shoe contact for a more secure fit. It is an excellent choice for traction, safety and durability. Featuring a generic pattern, the shoe is easily shaped to a front or hind foot.

- V-crease design for optimized nail fit and pitch
- Sole relief
- Full crease
- Sizes: 000-2

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

## Heeled

This heeled shoe is based on our generic shaped Plain model. The addition of the heels provides added traction in a variety of different terrain.

- Angled heel caulk
- Perfect for rough ground
- Suggested nail size: CH 5

### Options Available

Sizes	0-2 Reg
Sizes	000-2 Lite
Weight	Reg or Lite
Pkg.	000-00; 20pr/box 0-3; 10pr/box

## Pony

The pony shoe is designed for our smallest equine customers. The generic shape is ideal for ponies and easily modified into fronts or hinds.

- Smaller version of our "Plain" shoe
- Drop-forged for strength
- Suggested nail size: RN 4.5

### Options Available

Sizes	0-1
Weight	Lite
Pkg.	40pr/box

## Toe & Heel

The Toe and Heel model provides excellent traction for rough terrain. Specifically designed heel caulks and toe grab delivers grip, and protects the shoe from excessive wear.

- Maximum traction
- Rounded toe grab
- Suggested nail size: CH 5

### Options Available

Sizes	000-4 Reg
Sizes	000-2 Lite
Weighs	Reg or Lite
Pkg.	20pr/box 0-3; 10pr/box

## Mule

Our Mule shoe has been designed to minimize shaping and provides excellent durability.

- Improved shape
- Added traction of heels
- Suggested nail size: CH 5

### Options Available

Plain	000-0
Heel	00-0
Weight	Regular
Pkg.	20pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

## Advantage Steel

The Advantage offers excellent traction and added support. Available in front and hind patterns.

- Easy break-over in any direction and well-designed bold toe
- V-Crease for optimum nail seating and pitch
- Optimal heel support through wide heel design
- Concave inner web on ground surface
- Available clipped or unclipped

### Options Available

Side Clips	Front & Hind
Sizes	00-2
Unclipped	Front & Hind
Sizes	00-2
Pkg.	20pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

## Advantage Aluminum

The Advantage Aluminum is designed to provide an optimal balance between support and weight for a variety of sport horses. The front shape typically requires minimal shaping and the steel wear insert keep the toe from wearing out prematurely. The profile design promotes breakover while providing ample traction.

- Easy break-over in any direction and well-designed bold toe
- V-Crease for optimum nail seating and pitch
- Optimal heel support through wide heel design
- Concave inner web on ground surface
- Available clipped or unclipped

### Options Available

Side Clips	Front

Sizes	00-4
Pkg.	10pr/box

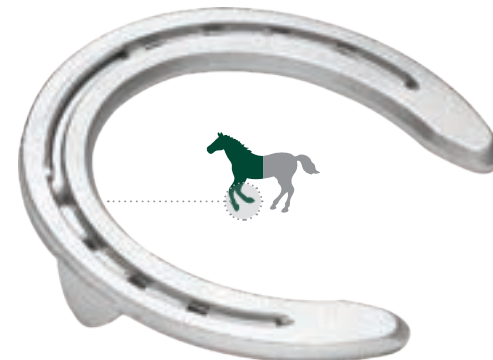

Clipped Shoes

## Advantage in Movement

## Front - Aluminum EZ

Patterned after our front pattern steel EZ, its wide, full profile offers great support with forged in wear inserts, state-of-the-art side clips and the lightness of aluminum.

## Front & Hind - Aluminum Eventer

- **70 % lighter**
- **Patterned after steel eventer**
- **Forged-in wear inserts**
- **State-of-the-art side clips**
- **Lightness of aluminum**
- **Suggested nail size: 5 CH**

The St. Croix Forge Eventer Aluminum is a lightweight version of the popular steel version, saving an estimated 70% in weight. Featuring a deep crease through the toe, it provides traction while the rolled toe helps to reduce leverage. A steel insert is embedded at the toe to prevent excessive wear.

### Options Available

Side Clips	Front & Hind
Front Sizes	000-3
Hind Sizes	000-2
Unclipped	Front & Hind
Front Sizes	000-2
Hind Sizes	00-2
Pkg.	10pr/box

## Front - Aluminum Eventer PLUS

- **70 % lighter**
- **State-of-the-art side clips**
- **Suggested nail: Size 0-4 / CH 5**

Same great features as the Steel Eventer PLUS, state-of-the-art side clips with the lightness of aluminum.

### Options Available

Clipped shoes

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

Mustad horseshoes are designed and crafted according to two key principles: the best shoes for the horse and optimal ease of application for the farrier. For this reason, our range of products is very broad. Mustad horseshoes can be applied to suit practically all possible circumstances, from the physical condition of the horse to any local requirements. We work in a state-of-the-art production environment, ensuring that you can always rely on the precision and consistency of our steel horseshoes.

# EQUI-LIBRIUM AIR

## The next level of sport shoes

The Equi-Librium™ AIR is available for front and hind feet: scientific studies prove that Equi-Librium™ AIR eases the breakover, thus decreasing the peak load and improving coordination:

- Newly designed front model, 15% lighter than standard Equi-Librium™
- Distinctive Equi-Librium™ rolled toe, more pronounced in the hind model
- Concave section through the toe providing extra grip
- Additional width in the heels for optimal support
- Clips in front shoe are positioned between the 1st and 2nd nail holes providing stability

Science-based design: the Equi-Librium™ rounded toe eases breakover. Anatomical shape and section-to-size design provides a proper fit, and saves farrier's time on the job.

### Options Available

Front Clips: 00, 0, 1, 2, 3, 4

Hind Clips: 00, 0, 1, 2, 3, 4

## Equi-Librium Steel Front

Designed at a leading Netherlands University, Olympic Champions and Endurance Performers World Wide have confirmed the success of the science driven design of the Mustad Equi-Librium sport horseshoe.

- Lateral branch is slightly longer
- Extra wide toe area is forged with a 2-dimensional convex curve allowing fluent breakover in any direction
- Center mass matches the Center of Pressure during mid-stance of the horse creating a perfectly balanced hoof
- Inside edge of the ground surface's concave section is balanced to reduce weight and mud build up
- Concave section and crease do not run through the heels to improve support during landing
- Full heels allow forging a variety of individualized alternatives to the heel area
- Beveled Edges, Sole Relief, and Flush Clips are all standard
- V-crease for better nail positioning and seating of Mustad Nails

### Options Available

### LiBero Equi-Librium

The extreme versatility of LiBero is now combined with the scientifically proven benefits of Equi-Librium, to provide more options to both the farrier and the horse.

- Great fit with all Mustad premium E-head nails
- Front side clips positioned between the 2nd and 3rd nail holes
- Equi-Librium rolled toe and quarters to enhance smooth breakover where the horse needs it
- Long-lasting durability on all terrains
- Sole relief to minimize sole pressure
- Wide heels for more support
- Optimal nail holes positioning
- Comes in left and right pattern following the asymmetrical foot shape

22x8 4

For a wide selection of Nails engineered specifically for Mustad shoes see pages 53-65.

### DynaMic

The Dynamic shoe is the result of years of feedback from farriers in Europe. Innovation and production objectives were to create a shoe that needs less work to shape and forge for this style of horseshoeing.

- Left and right hind pattern
- Bumped toe
- Built in sole relief
- Punched for E-head nails
- Additional support at the heels
- More narrow in the branches
- Clips positioned between 1st and 2nd nail holes

Egg Bar

Drop forged with no welds. This shoe features a true crease, precise nail holes, and is easy to fit shape.

**Options Available**

Sizes	00-3 Unclipped
Sizes	00-3 Side Clips
Pkg.	1 Opr/box

- Drop-forged with no welds
- Precise nail holes
- Available in quarter clips or unclipped
- Suggested nail size: CH 5

For a wide selection of Nails engineered specifically for Mustad shoes see pages 53-65.

## TS7 & TS8 - Challenger

Truer fit, longer wear, and greater performance in both front and hind patterns. The full toe design allows the shoe to last longer and the balanced shape means less time at the anvil. The Challenger also features sole relief while the nail holes are perfect for thin walled hooves. The TS8 model is even thicker and slightly wider for greater support, and protection of the hoof.

- Turned steel shoe made in Europe
- Accurate shape for true fit
- Full toe for longer wear
- Built-in sole relief for less time on the anvil
- Nail hole placement perfect for thin walled hooves
- Suggested nail size: CH 5

**TOE GRAB**

QT: .33" = 8mm

RT: .24" = 6 mm

LT: .158" = 4 mm

XLT: .08" = 2 mm

Turf plates:  
Flush = 0 mm

Shoe and toe grab regulations vary. Check Racetrack shoe policy to confirm which shoes or grabs are permitted.

Turf Plates - Front & Hind

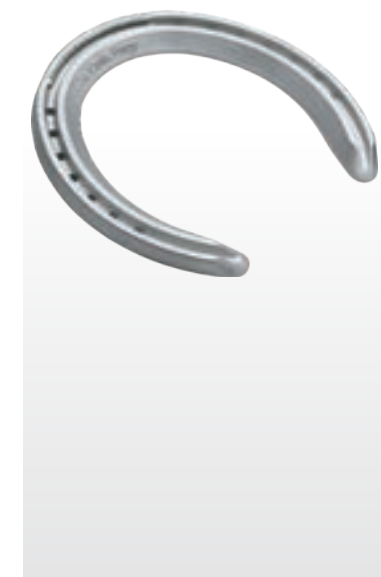

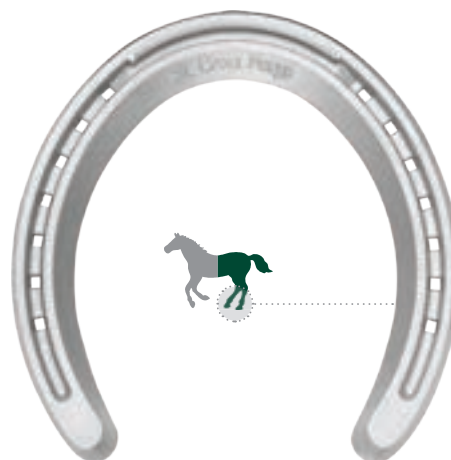

The Turf Plates feature the traditional St. Croix Forge shape with a flush toe grab, ideal for events that don't allow protruding toe grabs. Meant for grass and training.

**Options Available**

**Sizes:** 3 - 8

**Pkg:** 2 pr/box  
5 box/case

**Recommended nail for this product**  
RN 3.5

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

## XLT - Front & Hind

The XLT features the traditional St. Croix Forge front & hind pattern with a .08" (2mm) toe grab. A popular choice for both dirt and turf racing.

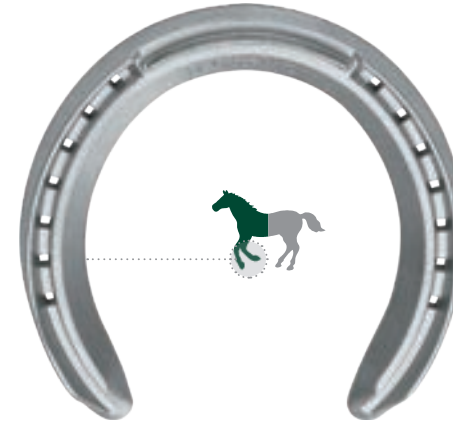

**Options Available**

- Toe Clip:** Hind
- Side Clips:** Hind
- Unclipped:** Front & Hind
- Sizes:** 3 - 8
- Pkg:** 2 pr/box  
5 box/case

**Recommended nail  
for this product**  
RN 3.5

## Outer Rim

Outside rim and a .08" (2mm) raised toe grab for increased traction.

**Options Available**

- Sizes:** 3 - 8
- Pkg:** 2 pr/box  
5 box/case

**Recommended nail  
for this product**  
RN 3.5

## Low Toe - Front Pattern Only

This plate features a .158" (4mm) steel toe grab. Offers another traction option for dirt surfaces.

**Options Available**

- Sizes:** 3 - 8
- Pkg:** 2 pr/box  
5 box/case

**Recommended nail  
for this product**  
RN 3.5

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

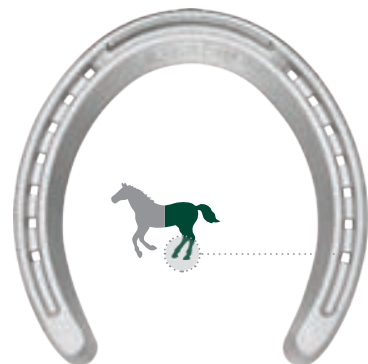

## Regular Toe Front & Hind

The Regular toe front & hind shoes feature a .24" (6mm) steel toe grab. A very popular choice for the hind shoe on dirt surfaces.

- Options Available**    **Sizes:**

The major technological inventions that have shaped the success of Mustad and Mustad products have been in the metal-mechanical field, particularly in items that can be made from steel wire - horseshoe nails being one such product. The result today is a horseshoe nail line of the highest quality standard in the industry. Each nail, whether Capewell, Mustad, Delta or Cooper, consists of a complexity of carefully computed tapers and angles with a sharp, beveled point for accurate placement and easy driving. Our two way cooperation with farriers from all over the world in combination with our advanced research and manufacturing know-how provide the farrier with the best possible horseshoe nail that money can buy.

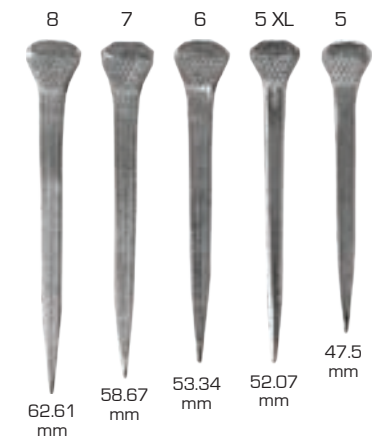

### Regular Head

Used for larger shoes... farm, draft and show horses.  
Popular for resets.

### City Head

General all purpose nail for use with saddle horses, working horses and ponies.

### Slim Blade

Drives with ease, with less hoof displacement.

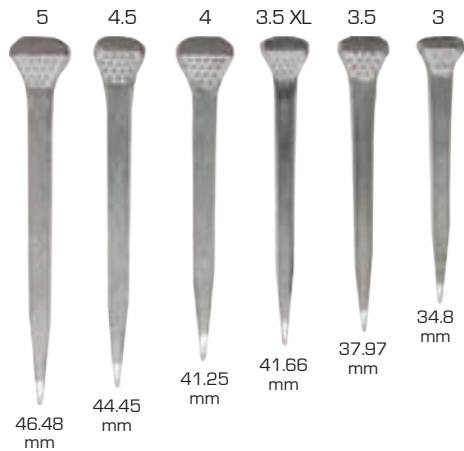

### Endura Slim Blade 5

- Endura coating provides up to 30% additional strength, so you are able use a slimmer nail when needed
- Endura coating prevents rust, leaving clean hooves without oxidation marks
- Improves nail driving and reduces hoof wall damage
- Enhanced durability and stronger clinches

### Race

The leading, most widely used brand of Race Nails in the industry.

### Combo 5

For handmade and foreign made shoes.

### Platers Special

Has the length of a 5, the head of a 4.5 RN. Perfect for sliding plates!

### City Classic

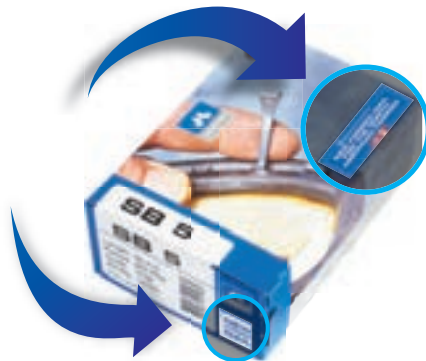

**NEW FORGED NAIL FOR THE NORTH AMERICAN FARRIER**

- Drives high and comes out where you want it
- Deep waffle stamp plus M at the head
- Forged with the highest grade steel
- Better clinching than competing brands
- Precise points

Look for the new forged nail labels

**MUSTAD ENDURA**

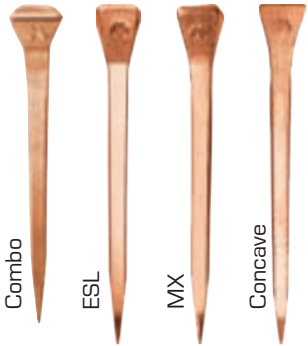

- Endura coating provides up to 30% additional strength, so you are able use a slimmer nail when needed
- Endura coating prevents rust, leaving clean hooves without oxidation marks
- Improves nail driving and reduces hoof wall damage
- Enhanced durability and stronger clinches

Concave		MX		ESL Pitch	
Size	Length	Size	Length	Size	Length
3	50.5	50	50	3	47.5
4	53.5	55	53	4	51
5	56.5	60	54.5	5	54

\*Nails length in mm by sizes

## MUSTAD COPPER NAILS

- Quality coating exceeds industry standards
- Copper coating prevents rust which eliminates discoloration around the nail holes
- Available in the most popular styles to fit a variety of shoes

Concave		MX		ESL		Combo	
Size	Length	Size	Length	Size	Length	Size	Length
3	50.5	50	50	3	47	5	59.5
4	53.5	55	53	4	51		
5	56.5	60	54.5	5	54		

\*Nails length in mm by sizes

## MUSTAD SLIDER 4.5

44 mm

The Mustad Slider 4.5 nail brings performance and efficiency to the Reining Circuit.

- Flat head
- Made to fit flush with plates
- Avoids the need to rasp nail heads
- Secures a locking fit with most sliding plates
- Saves time

## HAMMERHEAD™

The Racenail Revolution

- Specially designed, wide rectangular head for added durability throughout the full shoeing cycle
- The distinct neck and head waffle design, combined with the exclusive Mustad Pitch™ technology, providing a safe locking solution into the shoe crease
- The perfect fit prevents any shoe movement and therefore limits hoof wall displacement
- A long slim shank that drives high when needed
- Clinches are strong and easy
- The sharp, exact point ensures a consistent drive, minimizing the hoof wall impact to an absolute minimum
- The HammerHead™ nail fits into all creased race plates punched for both CH and E nails

Mustad HammerHead™ is designed to fit all race plates

Size	Length in inches
0	1.61"
1	1.73"
2	1.85"

## Concave Nails

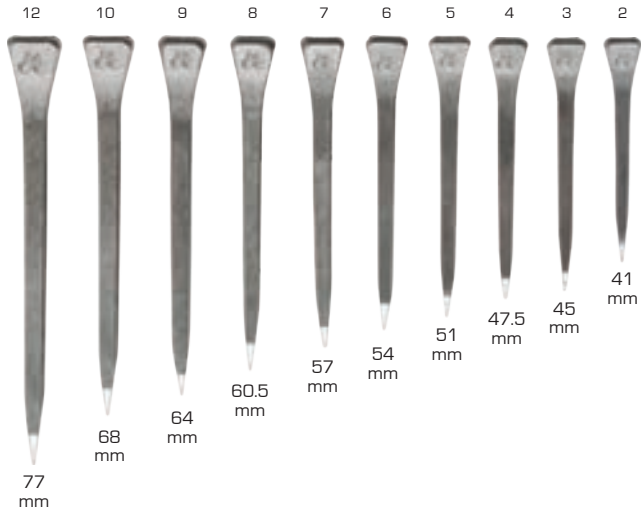

The Concave nail has a special head shape that prevents the nail from twisting in the fuller and nail hole. The longer slim and strong shank gives the option to nail higher when this is preferred or necessary. The concept of PITCH offers a small angle between the nail head and the shank which aids nailing at the correct angle, and reduces the pressure on the hoof wall.

- Extra length with slim design
- Perfect for Concave, Equi-Librium and Eventer horseshoes

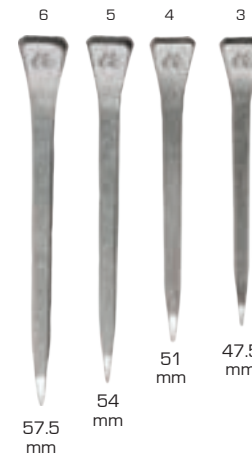

### "E" Nails

European style nail for European and handmade shoes

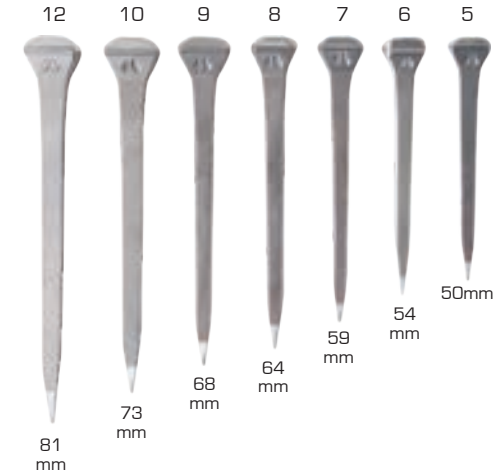

### "E" Slim Nails

European style for thin walls and brittle hooves.

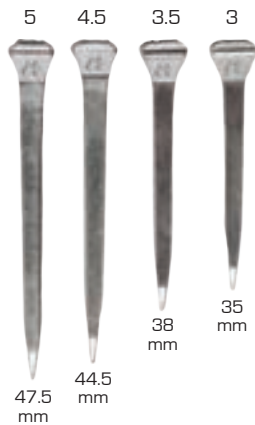

### Regular Nails

The traditional regular nail is especially suitable for heavy, pack and working horses.

### Race Nails

For race horses.  
Good for thin-walled horses.

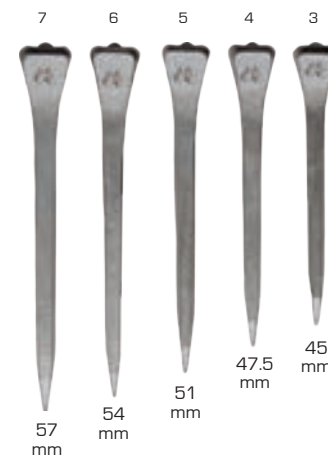

### City Head Nails

For use with saddle horses, working horses and ponies.

### Road E Nails

The Road Nail design is based on the E and E-Slim nails with the addition of a carbide pin in the head to reduce wear. Available in E and E-Slim nails.

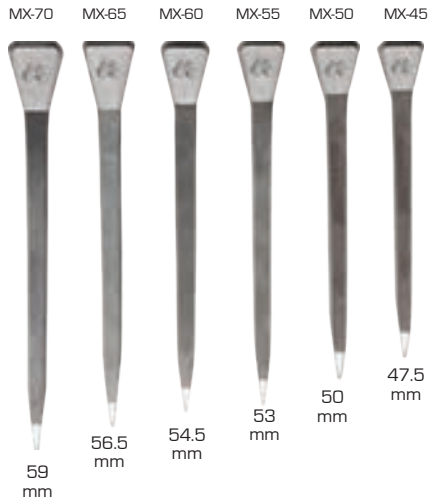

### Road ESL Nails

### Mustad MX Nails

For hand punched and European style shoes. Ideal for thin walled horses.

### Combo Nail

For handmade and foreign made shoes.

### ESL Pitch Nails

The E-slim nail is manufactured with a longer thinner shank than the standard E-nail so that it can be driven high with precision. The E-slim is ideal for horses with thin or brittle hoof walls.

- Drives & seats in line with the hoof wall angle, without adding unnecessary pressure
- Provides an unbeatable nail hole fit
- Ideal for horses with thin hoof walls
- Makes your work easier and more efficient

## DELTA COPPER NAILS

YOUR FAVORITE DELTA NAILS NOW AVAILABLE IN COPPER

- Copper coating prevents rust which eliminates discoloration around the nail holes
- Slim blade designed for smooth driving and less hoof displacement
- Engineered to lock you nail perfectly
- Point is sharp, precise and consistent

#### City Head Slim

#### Combo Slim

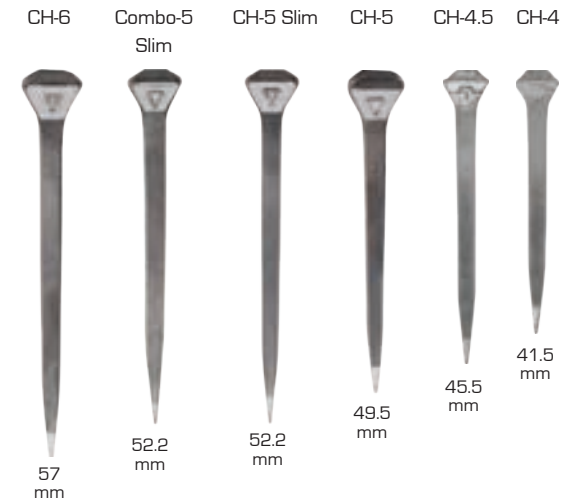

#### E Slim Blade

### City Head Nails

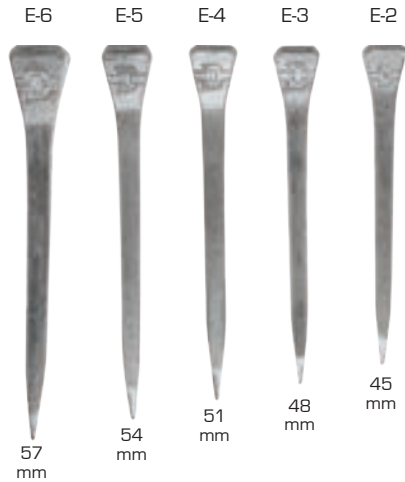

The Delta City Head nails are an excellent choice for a variety of shoes. They work especially well in drop forged shoes. They feature a sharp point, exact bevel and a slightly longer shank than other brands.

The Combo-5 Slim features a fuller shank where it meets the head, making it perfect for resets.

### “E” Nails

The Delta E nails are styled after the traditional European design and work well in both handmades and a variety of imported shoes. They feature a sharp point, exact bevel and a longer shank for more nailing options.

### E-Slim Blade Nails

The Delta E-Slim nails feature a more defined head and a much slimmer shank than the regular E nails, allowing them to be used in a wider variety of shoes, including ones punched for City Head nails.

### Race Nails

The Delta Race nails are the perfect choice for race plates. Also used on pony shoes and sliding plates, these nails feature a sharp point and an exact bevel for a consistent drive every time.

### Cooper “Lite” Nails

Slim blades which drive easier, have less hoof displacement and offer effortless clinching.

# HELLER RASPS

REACH FOR TRADITION

## eXcel LEGEND

# HELLER RASPS

Tradition Redefined

## eXcel LEGEND

- 10 % wider yet light and balanced
- Wider working area supports efficient hoof removal and leveling
- Legend teeth design now even more effective in wet conditions
- New multiglide file side ensures a smooth finish

# 32170

## eXcel ORIGINAL

- 10 % wider yet light and balanced
- Larger working surface for improved leveling, efficiency and control
- Coarse side teeth extended to the edges for rasping in clips
- More teeth per square inch than our standard rasps
- Performs in a variety of conditions

# 32169

## HELLER GRIP

- Unique design and texture increases grip and comfort
- Two versions to fit the full line of Heller Rasps including the new eXcel series
- Unique design and texture increases grip and comfort

# 60083 (eXcel)

## PRO-FINISH by Heller

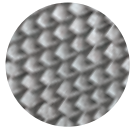

Heller's multiglide cut delivers just the right amount of hoof removal leaving a show quality finish. Its unique overcut avoids clogging. Heller's smoothglide side removes the slightest amount of material; leaving an overall polished finish.

- Finishes smoothly
- Leaves no rasp marks
- Provides a show quality finish
- Preferred by champions

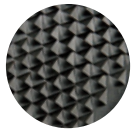

# 32164

- # 32165  
14" Legend Rasp
- 100 % tested, inspected
  - Guaranteed to be tough
  - Easy to clean

### Legend

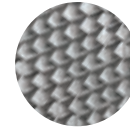

Features a larger tooth angle, resulting in a more open structure in the rasp. Well suited for softer, damper horn material which clogs a finely toothed rasp.

- # 32167  
14" Black Legend Rasp
- 100 % tested, inspected
  - Guaranteed to be tough
  - Easy to clean

### Black Legend

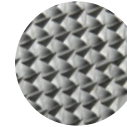

The Black Legend differs from the Heller Legend through the addition of a surface treatment that ensures the material is released from the rasp more easily and makes it more wear resistant.

- # 32151  
14" Red Tang Rasp
- "The Red Tang rasp consistently performs to my expectations."  
- DAN HAUSSMAN, FARRIER

## Red Tang

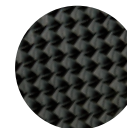

A finely toothed rasp that removes material easily and is well suited for rasping hard, dry hooves.

- # 32171  
17" Big Hoof Rasp
- Last long
  - Cut and glide easily
  - Offers a smooth finish

## Big Hoof

An extra long fine-toothed rasp. Length makes this rasp a good choice for extra large hooves. Fine teeth make it ideal for dry, hard hooves.

- # 32152
- Closer structure, ideal for rasping hard, dry hooves
  - 6 teeth per row
  - Ideal in dry weather conditions

## Black Master

Small teeth with a more concentrated pattern for an efficient cut in dry environments or for harder hooves. The Black Master features a special surface treatment at our Heller factory that prolongs the life of the rasp.

Mustad horseshoe studs are made to the most exacting specifications and come in a wide range of styles to meet the grip requirements of all equine disciplines and environments. Designed by farriers in conjunction with competition riders. Mustad horseshoe studs offer performance, choice and durability at low prices. Mustad horseshoe studs are especially hardened during manufacturing to make the threads stronger and the tungsten pins are brazed to the body of the stud for better durability and strength over rocky terrain.

Ice studs made of steel with hardened body and welded tungsten carbide insert. Designed for riding and jumping on hard and rocky terrain. Grass studs are made of softer steel without tungsten carbide insert. Designed for riding and jumping on grass when extra grip is required.

### Mustad Drive-in Studs

P-10 S : P-11 S

P-11 1/2 : P-12 : P-13 S

With Mustad's carbide tip Studs, you'll see superior winter traction on ice, snow, mud and blacktop without time-consuming welds.

They last so long you can often reuse them on resets. Just punch the stud back out and you're ready to put it back in another shoe!

Type	Product #	Head Diameter MM	Height Above Shoe MM	Drill Bit	Pieces Per Box
P-10 S	70692	14	6.5	17/64"	50
P-11 S	70694	10	7.5	17/64"	50
P-11 1/2	70695	10	8.5	17/64"	50
P-12	70696	10		23/64"	50
P-13 S	70697	8		17/64"	50

### Plugits

Mustad Plugits® prevent debris from getting into the horse's heel area by plugging the stud hole. Plugits are treated with a rust preventive formula to give the ultimate in thread protection. Simply turn Plugits clockwise into the stud hole. To remove, pry them out with a pointed object to reveal a like-new stud hole.

# 80601

### Step 1. Drill

Simply select the correct drill bit size for the stud size from the chart and drill a hole in the shoe.

### Step 2. Drive

Place the stud in the hole and drive with a soft face hammer. (Do not use a hard face hammer as chipping may occur.) Do not drive it all the way to the other side of the shoe or until the shoulder touches the bottom side of the shoe.

### Ultra Lube Cutting Tool Lubricant

No-run formula, clings to vertical surfaces for continual lubrication

Item	Prod #	Packed
16 oz	35502	12 per case

### Sure Weld

A borax based compound to prevent oxidation while forging steel at high temperatures, making it easier to weld.

### Nipper

Nipper performance sets the foundation for the overall success of your trim. The Mustad Premium Nipper features a unique Box Joint which is designed to maintain stability and accuracy through the long life of the tool. Mustad Premium Nippers are equipped with a precise cutting edge sharpness, tool strength, and durability. This nipper offers accurate cuts which reduces the amount of rasping required.

# 70020

### Ergo-Clincher

The unique design takes stress of your wrists and hands while clinching nails. The ergonomic angle and jaw design provides the ability to produce a tight flat clinch for every nail cut. The Mustad Premium Ergo-Clincher sets and secures the clinch with minimum impact on the hoof wall.

# 70075

### Pull-Off

This well balanced tool is as efficient as it is comfortable. The Mustad Premium Pull-Off is the very definition of form and function. Through its innovative design, it delivers the mechanical advantage required for effortless removal of the shoe.

# 70060

### Crease Nail Puller

Precision and Design are critical characteristics for a crease-nail-puller worth having. The fine, precise tip and the jaws make it easy to pull nails out of a variety of creases. The wide head design reduces the amount of force required when pulling nails.

# 70080

Mustad Tools are designed to bring comfort, performance and durability to the job. Mustad offers a wide range of tools to choose from in an attractive, blackened finish. Tools that work as hard as you do, day after day.

A strong brand, a strong history and wide variety of industry products - Mustad. You trust your horse's shoes and health only to the best brands. We provide the top lines of pads, boots, hoofcare health, prevention and nutrition products. The well-being of horses is what Mustad stands for and we continuously research the hoofcare field for the newest and best hoof care products.

### HOOF PAD

- Your “Must have” pad material to create comfort and protection
- Urethane-based, that sets in 30 seconds and sticks directly to a clean, dry sole
- Ideal with or without any kind of pads
- Optimal shock absorption, support and protection, enhancing the general condition of the sole, frog and hoof

### HOOF PAD SOFT

- Extra Soft Hoof pad material for very sensitive soles
- It sets in 30 seconds and affixes to clean dry soles
- Can be used with any kind of pad
- It seals the pad from any debris or moisture getting in between the pad and sole

### HOOF PAD ZNO

- Intended for wet conditions and helps prevent thrush
- Sets in 30-45 seconds
- Provides excellent cushioning and won't get as hard as competing brands
- Bonds to the hoof and will not allow air or humidity to get to the sole

### HOOF REPAIR BLACK

- Adhesive designed for large and small hoof repairs
- Bonds to most shoes
- Affixes to a clean dry hoof wall
- Sets in approximately 1 minute and hardens within 5 minutes while maintaining flexibility to ensure natural hoof movement
- Hardens to black color

### SILICONE

- It gives good protection and coverage of the sole
- This silicone sets within 3 minutes
- Can be used with any kind of pad
- It prevents debris or moisture getting in between the pad and the sole

### SUPER BOND

- It sets in 30 seconds and sticks to a clean dry hoof wall for small repairs
- Create a custom shoe for horses
- Perfect to glue on cuffs for foals or use with foal extension

Comfort 200 cc Dispenser

Mixing Tips

### No-Snow Pad

The Mustad No-Snow Pad has a unique air cushion that compresses, then expands to push snow out of the hoof, preventing dangerous snowball build-up and improving winter traction. Also a, great choice to prevent mud accumulation. No-Snow Pads are durable enough to handle tough winter conditions, can be easily applied during shoeing, and can usually be used in multiple resets.

- Improved shape fits most hooves and horseshoes
- Improved color makes it easier to locate horseshoes when they are lost in the snow

Item	Prod #	Packed
Mustad No-Snow Blue Front	80482	Pair

80300	Support Full
80316	Bar Wedge Small #1
80317	Bar Wedge Medium #2

The pads transfer weight from the hoof wall to the frog, which relieves pain instantly in cases of under run and sheared heels, quarter cracks, laminitis, and pedal osteitis. Using the pads will keep your horse serviceably sound, while helping to correct heel problems in the long term. Full Support Pads are available in small and full, as well as small and medium Bar Wedge configuration. They can be used with egg bars, straight bars, and open shoes and be reused if problems reoccur.

Thrush Buster®

So powerful it lasts for up to eight days without reapplication... even in the wettest, muddiest terrain. Stomps out thrush on contact. A single application relieves agonizing, crippling effects of thrush and dramatically reduces chance of reinfection.

Packed: 24 - 2.0 oz bottles per case.

# 90010

\*Not sold in Canada

Tuff Stuff®

Hoof conditioner and toughener that's also a show quality cosmetic.

- Strengthens brittle, shelly, mushy or cracked hoof walls
- Protects scuffed toes and guards against fungus, caustics and bacteria
- Maintains the hoof wall's natural moisture level

Packed: 12 - 7.5 oz bottles per case.

# 90001

Hoof Shield

An all-natural hoof sealant formulated to maintain natural moisture level of the hoof. It forms a barrier to prevent brittle cracking in hot, dry conditions and soft, mushy hooves in wet conditions.

# 65015 Avail. 8 oz dauber bottle 12/cs

Hoof Marvel

All-natural hoof moisturizer that works incredibly fast to restore moisture to the foot. A real friend to the farrier who wants a workable hoof when conditions are extremely dry.

# 65030 1 gallon refill bottle 4/cs

# 65031 Avail. 32 oz spray bottle 12/cs

DELTA

High Performance Hoofcare Products

MUSTAD

High Performance Hoofcare Products

### Delta Hoof Boot

The Delta Hoof Boot provides all-terrain protection for both occasional and everyday riding. Easy to put on and take off, it stays securely on the foot. The high-performance urethane outsole provides maximum durability and shock absorbtion while providing traction similar to an unshod foot. Drainage holes keep the feet dry.

- Foam filled back flap and collar for added comfort and protection
- Raised inner rim offers built in sole relief
- Industrial grade velcro fasteners

Product #	Hoof Length	Boot Size
