FEATURED PRODUCTS BY MUSTAD USA

EZ PLUS Front & Hind

EZ Plus offers a wider web for additional support and boxed heels to save time. The fronts are symmetrical, while the hinds come in a left and right pattern with added length in the outside branch. Using a deep V-crease to secure the nail, this shoe is punched for a SB 5 nail.

- V-crease
- Safer locking of nail head into shoe
- Better nail positioning
- Extreme durability
- Excellent support
- Added protection
- Heavier than a standard shoe
- Has a Fullured Rim

FEATURED PRODUCTS BY MUSTAD USA

TS8 - Challenger

Truer fit, longer wear, and greater performance in both front and hind patterns.

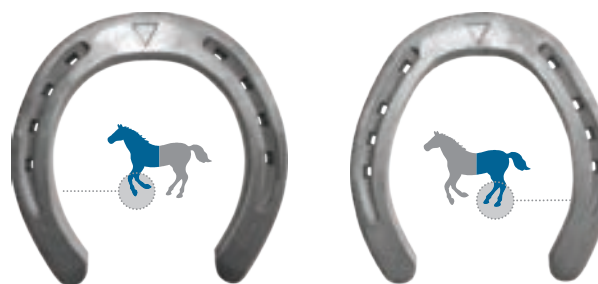

The full toe design allows the horseshoe to last longer and the balanced shape means less time at the anvil. The Challenger also features sole relief while the nail holes are perfect for thin walled hooves.

The TS8 model is even thicker and slightly wider for greater support, and protection of the hoof.

- Turned steel shoe made in Europe
- Accurate shape for true fit
- Full toe for longer wear
- Built-in sole relief for less time on the anvil
- Nail hole placement perfect for thin walled hooves
- Suggested nail size: CH 5

Weight	Regular

Eventer - Front & Hind

The Eventer design provides the protection and support of a wide web shoe with the breakover, and traction of a rim shoe. The heel shape allows for a tight fit while still providing enough material for support and studs when required. The front and hind shapes typically require minimal shaping.

- Rolled-toe shoe
- Concave hoof surface
- Graduated thickness
- Suggested nail:
Size 000 / 4.5 RN
Size 00-3 / CH 5
Size 4 / CH 6

Options Available

Side Clips	Front & Hind

Unclipped	Front & Hind
Sizes	000-4
Weight	Regular
Pkg.	20pr/box
	3-4; 10pr/box
Clip Pkg.	10pr/box

Xtra

That extra something, forged into a shoe. Extra width, extra protection, perfect for "in-between" sized feet.

- Extra wide, extra protection
- Perfect for in-between sized hooves
- Suggested nail size: CH 5
- The generic pattern allows the shoe to easily shape for front or hind feet.

Options Available

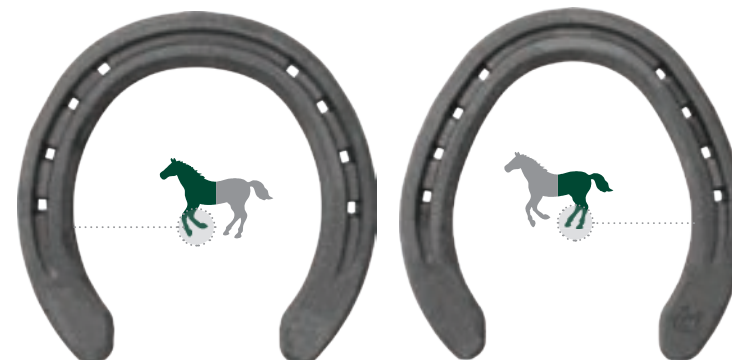

Unclipped	Symmetrical
Sizes	00-5
Toe Clip	Symmetrical
Sizes	0-5
Weight	Regular
Pkg.	00-2; 20pr/box
	3-5; 10pr/box
Clip Pkg.	10pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

Eventer PLUS - Front & Hind

Wider web provides added support, full crease contributes to improved traction. Symmetrical front, left and right hind patterns.

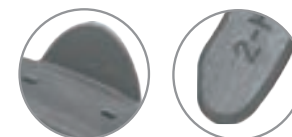

Options Available

Side Clips	Front & Hind
Sizes	0-4
Unclipped	Front & Hind
Sizes	0-3
Weight	Regular
Pkg.	0-1; 20pr/box
	2-3; 10pr/box
Clip Pkg.	10pr/box

- For thicker hoof walls
- Lateral hind branches slightly longer and wider
- Suggested nail:
Size 0-1 / CH 5
Size 2-4 / CH 6

PLUS Shoe Improvements:

- Left and right hind pattern with support fit heels
- Lateral hind branches slightly longer and wider
- Finished boxed heels on hoof surface
- Sole pressure relief
- Wider web and thickness appropriate to the size of the shoe
- Improved crease for perfect nail locking
- Front and Hind shoes come with side clips only

Clipped shoes

Finished boxed heels

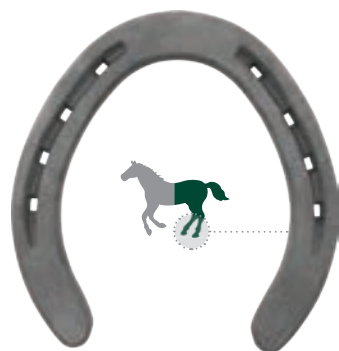

SureFit

These shoes are based on the popular line of Lite shoes, in a front and hind pattern with a V-crease.

- V-crease for better nail positioning
- Web grows with the size of the shoe
- Available with side clips
- Reduce time on the anvil
- Sole pressure relief
- Finished heels
- Suggested nail size: CH 5

Options Available

Unclipped	Front & Hind
Sizes	000-1
Weight	Lite
Pkg.	20pr/box

SureFit Rim

Same features and benefits as our other Surefit shoes but the Rim allows for maximum traction. Upright edges minimize slippage in turns while maximizing push off and upright full heels allow for maximum support.

- V-crease for better nail positioning
- Rim allows for maximum traction
- Upright edges minimize slippage while maximizing push off
- Upright full heels allow for maximum support
- Suggested nail size: CH 5

Options Available

Front	
Sizes	00-1
Weight	Lite
Pkg.	20pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

CrossOver

The CrossOver features the latest in horseshoe technology, Variable Pitched Nails (VPN). What that means is that the nail holes have more pitch in the toe and become straighter towards the heel, following the natural angle of the hoof.

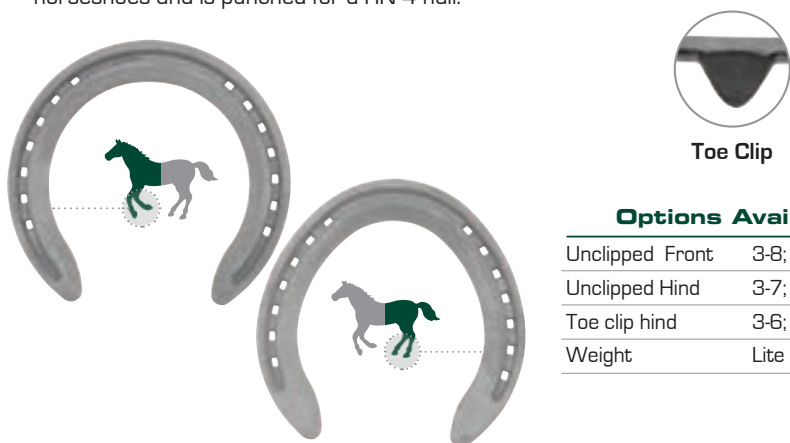

Options Available

Side Clips	Front
Sizes	1-4
Toe Clip	Front
Sizes	1-4
Unclipped	Front
Sizes	0-4
Quarter	
Clipped	Hind
Size	0-4

- Designed with a variable pitch
- Packaging box of 10 pairs
- Longer narrower shape is well suited for a variety of horse breeds
- This 8mm shoe features a deep fulling
- Suggested nails:
Size 0-1 / CH5
Size 2-4 / SB6

Concorde - Front & Hind

The St. Croix Forge Concorde Steel shoe offers the same front and hind shapes as our Aluminum Concorde. A deep perimeter crease, rolled toe and softened outer edges provide traction and durability in a lightweight steel option. It is a good alternative for those who look for a stronger and more durable option to the aluminum shoe. It is ideal for young Thoroughbreds getting their first set of horseshoes and is punched for a RN 4 nail.

Toe Clip

Options Available

Uncropped Front	3-8; 10pr/box
Uncropped Hind	3-7; 10pr/box
Toe clip hind	3-6; 10pr/box
Weight	Lite

Polo Front

Traction, turns, and enhanced breakover, carefully engineered.

- Signature higher inside rim
- Also available in a compromised pattern (regular).
- Suggested nail size: SB 5
Original Polo: 00-1
00 / RN 4.5
0-1 / PS 5

Options Available

Front	00-1
Regular	0-1
Pkg.	20pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

Plain

This horseshoe became an industry standard for a solid everyday application. The generic pattern allows for easy front or hind shaping while the dimensions offer excellent durability and reset options.

This is America's basic flat creased horseshoe, designed for versatile use wherever you shoe.

- Designed for versatile use
- Suggested nail size: CH 5

Options Available

Sizes	000-3
Weight	Regular
Pkg.	20pr/box
	3; 10pr/box

Ultra Lite Rim

Provides exceptional traction in a super light weight all-purpose horseshoe. Built on the successful Plain Lite Rim design and nail pattern, this reduced weight and increased traction horseshoe is ideal when weight is a primary concern. The generic shape is easy to modify and features a crease from heel to heel.

- Thin as a training plate
- Forged for strength
- Full crease & rolled toe
- Suggested nail:
Size: 000-00 / RN 4.5
Size: 0-2 / RN 5
- Available in toe clip (000-0)

Options Available

Sizes	000-2
Weight	Lite
Pkg.	20pr/box

Lite V-Crease

Take the proven design of the Plain and make it slightly thinner to reduce some weight, and you have the Lite V-crease.

The generic pattern is easily shaped into a front or hind. This shoe features a V-crease to improve nail-to-shoe contact for a more secure fit.

- V-crease design for optimized nail fit and pitch
- Sole relief
- Full crease
- Punched for CH5
- Generic pattern
- Sizes: 000-4

Options Available

Sizes 000-2	20pr/box
Sizes 3-4	10pr/box
Weight	Lite

Lite Rim V-Crease

Provides exceptional traction in a lightweight all-purpose shoe. Built on the successful St. Croix Forge plain shoe and nail pattern, this reduced weight and increased traction shoe is a favorite among western sport horses. Features a rolled toe which eases breakover.

- V-crease design for optimized nail fit and pitch
- Sole relief
- Full crease
- Sizes: 000-2

Options Available

Sizes 000-2	20pr/box
Weight	Lite

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

Rim V-Crease

This Rim horseshoe has a V-crease from heel to heel with softened outer edges and a slight rolled toe. The V-crease greatly improves nail-to-shoe contact for a more secure fit. It is an excellent choice for traction, safety and durability. Featuring a generic pattern, the shoe is easily shaped to a front or hind foot.

- V-crease design for optimized nail fit and pitch
- Sole relief
- Full crease
- Sizes: 000-2

Options Available

Sizes 000-2	20pr/box
Weight	Regular

Heel

This heeled horseshoe is based on our generic shaped Plain model. The heels provides added traction for a variety of different terrain.

- Angled heel caulk
- Perfect for rough ground
- Suggested nail size: CH 5

Options Available

Sizes	000-2 Reg
Sizes	000-2 Lite
Weight	Reg or Lite
Pkg.	000-00; 20pr/box
	0-2; 10pr/box

Toe & Heel

The Toe and Heel model provides excellent traction for rough terrain. Specifically designed heel caulks and toe grab delivers grip, and protects the shoe from excessive wear.

- Maximum traction
- Rounded toe grab
- Suggested nail size: CH 5

Options Available

Sizes	000-4 Reg
Pkg.	000-00 20pr/box
	0-4; 10pr/box

Pony

The pony shoe is designed for our smallest equine customers. The generic shape is ideal for ponies and easily modified into fronts or hinds.

- Smaller version of our "Plain" shoe
- Drop-forged for strength
- Suggested nail size: RN 4.5

Options Available

Sizes	0-1
Weight	Lite
Pkg.	40pr/box

Advantage Steel

The Advantage horseshoe offers eased breakover in any direction, excellent traction, and added support. Ideal front and hind patterns make shaping and nailing more efficient. Features V-crease for improved nail-to-shoe fit, built in sole relief, and is fullered through the toe.

- Easy break-over in any direction and well-designed bold toe
- V-Crease for optimum nail seating and pitch
- Optimal heel support through wide heel design
- Concave inner web on ground surface
- Available clipped or unclipped
- Suggested nail size: CH5

Options Available

Side Clips	Front & Hind
Sizes	00-3
Unclipped	Front & Hind

Pkg.	20pr/box
Clip Pkg.	10pr/box

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

Advantage Aluminum

The Advantage Aluminum is designed to provide an optimal balance between support and weight for a variety of sport horses. The front shape typically requires minimal shaping and the steel wear insert keep the toe from wearing out prematurely. The profile design promotes breakover while providing ample traction.

Options Available

- Easy break-over in any direction and well-designed bold toe
- V-Crease for optimum nail seating and pitch
- Optimal heel support through wide heel design
- Concave inner web on ground surface
- Available clipped or unclipped

Advantage in Movement

- 70 % lighter
- Patterned after steel EZ
- Forged-in wear inserts
- State-of-the-art side clips
- Suggested nail size: 5 CH

Front - Aluminum EZ

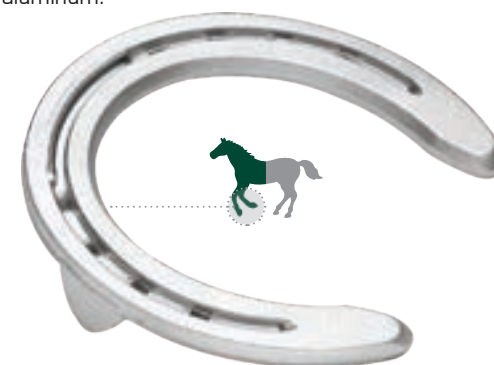

Patterned after our front pattern steel EZ, its wide, full profile offers great support with forged in wear inserts, state-of-the-art side clips and the lightness of aluminum.

Options Available

Side Clips	Front
Sizes	00-3
Pkg.	10pr/box

Clipped Shoes

Front & Hind - Aluminum Eventer

- **70 % lighter**
- **Patterned after steel eventer**
- **Forged-in wear inserts**
- **State-of-the-art side clips**
- **Lightness of aluminum**
- **Suggested nail size: 5 CH**

The St. Croix Forge Eventer Aluminum is a lightweight version of the popular steel version, saving an estimated 70% in weight. Featuring a deep crease through the toe, it provides traction while the rolled toe helps to reduce leverage. A steel insert is embedded at the toe to prevent excessive wear.

Options Available

Clipped shoes

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

Mustad horseshoes are designed and crafted according to two key principles: the best shoes for the horse and optimal ease of application for the farrier. For this reason, our range of products is very broad. Mustad horseshoes can be applied to suit practically all possible circumstances, from the physical condition of the horse to any local requirements. We work in a state-of-the-art production environment, ensuring that you can always rely on the precision and consistency of our steel horseshoes.

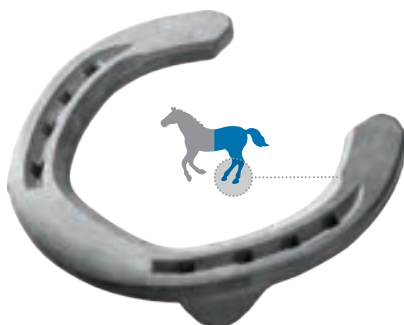

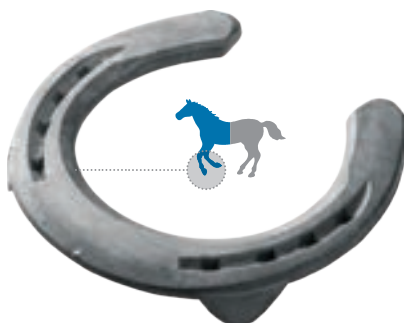

EQUI-LIBRIUM AIR

The next level of sport shoes

The Equi-Librium™ AIR is available for front and hind feet: scientific studies prove that Equi-Librium™ AIR eases the breakover, thus decreasing the peak load and improving coordination:

- AIR front model is 15% lighter than the standard Equi-Librium
- Distinctive Equi-Librium™ rolled toe, more pronounced in the hind model
- Concave section through the toe provides extra grip
- Additional width in the heels for optimal support
- Clips in front shoe are positioned between the 1st and 2nd nail holes providing stability

Science-based design: the Equi-Librium™ rounded toe eases breakover. Anatomical shape and section-to-size design provides a proper fit, and saves farrier's time on the job.

Options Available

Front Clips: 00, 0, 1, 2, 3, 4

Hind Clips: 00, 0, 1, 2, 3, 4

Pkg. all sizes 10 pr./box

Equi-Librium Steel Front

Designed at a leading Netherlands University, Olympic Champions and Endurance Performers world wide have confirmed the success of the science driven design offered by the Mustad Equi-Librium sport horseshoe.

- Lateral branch is slightly longer
- Extra wide toe area is forged with a 2-dimensional convex curve allowing fluent breakover in any direction
- Center mass matches the Center of Pressure during mid-stance of the horse creating a perfectly balanced hoof
- Inside edge of the ground surface's concave section is balanced to reduce weight and mud build up
- Concave section and crease do not run through the heels to improve support during landing
- Full heels allow forging a variety of individualized alternatives to the heel area
- Beveled Edges, Sole Relief, and Flush Clips are all standard
- V-crease for better nail positioning and seating of Mustad Nails

DynaMic

The Dynamic shoe is the result of years of feedback from farriers in Europe. Innovation and production objectives were to create a shoe that needs less work to shape and forge for this style of horseshoeing.

- Left and right hind pattern
- Bumped toe
- Built in sole relief
- Punched for E-head nails
- Additional support at the heels
- More narrow in the branches
- Clips positioned between 1st and 2nd nail holes

TS7 & TS8 - Challenger

Truer fit, longer wear, and greater performance in both front and hind patterns. The full toe design allows the horseshoe to last longer and the balanced shape means less time at the anvil. The Challenger also features sole relief while the nail holes are perfect for thin walled hooves. The TS8 model is even thicker and slightly wider for greater support, and protection of the hoof.

- Turned steel shoe made in Europe
- Accurate shape for true fit
- Full toe for longer wear
- Built-in sole relief for less time on the anvil
- Nail hole placement perfect for thin walled hooves
- Suggested nail size: CH 5

for this product**
RN 3.5

For a wide selection of Nails engineered specifically for St. Croix Forge shoes see pages 53-65.

St. Croix ST (Safe Toe)

This front pattern shoe is HISA (Horseracing Integrity and Safety Authority) compliant for all racing surfaces (Dirt, Turf, Synthetic).

This shoe has a flush toe insert and optimal shape requiring minimal modifications. Great nail hole placement, beveled heel and branch, and prominent sole relief result in less time grinding and modifying.

Options Available

Unclipped: Front

Sizes: 5 - 8

St. Croix ST (Safe toe) Concorde

This hind pattern shoe is HISA (Horseracing Integrity and Safety Authority) compliant for all racing surfaces (Dirt, Turf, Synthetic).

This hind shoe features a flush toe insert and strong toe clip, prominent sole relief, excellent nail hole placement, and beveled heel and branch, requiring very few modifications.

Options Available

Toe Clip: Hind

Sizes: 4 - 7

St. Croix Concorde Xtra

This front and hind pattern shoe is HISA (Horseracing Integrity and Safety Authority) compliant for all racing surfaces (Dirt, Turf, Synthetic).

The front shoes are designed with a flush toe insert that fits the rounder shape of front feet perfectly.

The hind shoes are designed with a symmetrical hind pattern and strong toe clip. The shoe features a wider web for increased support, a strong toe clip, great nail hole placement, prominent sole relief, and beveled heel and branch that require less time grinding and modifying.

Recommended nails: 3 race, 3.5 race, and 3.5 XL race.

Options Available

Toe Clip: Front & Hind

Sizes: 4 - 7

The major technological inventions that have shaped the success of Mustad and Mustad products have been in the metal-mechanical field, particularly in items that can be made from steel wire - horseshoe nails being one such product. The result today is a horseshoe nail line of the highest quality standard in the industry. Each nail, whether Capewell, Mustad, Delta or Cooper, consists of a complexity of carefully computed tapers and angles with a sharp, beveled point for accurate placement and easy driving. Our two way cooperation with farriers from all over the world in combination with our advanced research and manufacturing know-how provide the farrier with the best possible horseshoe nail that money can buy.

HAMMERHEAD™

The Racenail Revolution

- Specially designed, wide rectangular head for added durability throughout the full shoeing cycle
- The distinct neck and head waffle design, combined with the exclusive Mustad Pitch™ technology, providing a safe locking solution into the shoe crease
- The perfect fit prevents any shoe movement and therefore limits hoof wall displacement
- A long slim shank that drives high when needed
- Clinches are strong and easy
- The sharp, exact point ensures a consistent drive, minimizing the hoof wall impact to an absolute minimum
- The HammerHead™ nail fits into all creased race plates punched for both CH and E nails

Mustad HammerHead™ is designed to fit all race plates

Options Available
Size 0 - 24x 250
Sizes 1, 2 - 12x 250
Case only

Size	Length in inches
0	1.61"
1	1.73"
2	1.85"

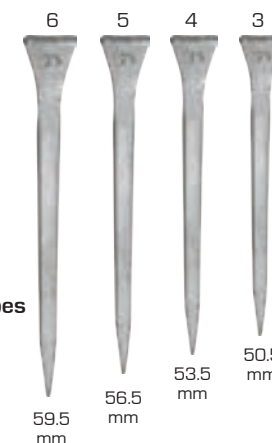

Concave Nails

The Concave nail has a special head shape that prevents the nail from twisting in the fuller and nail hole. The longer slim and strong shank gives the option to nail higher when this is preferred or necessary. The concept of PITCH offers a small angle between the nail head and the shank which aids nailing at the correct angle, and reduces the pressure on the hoof wall.

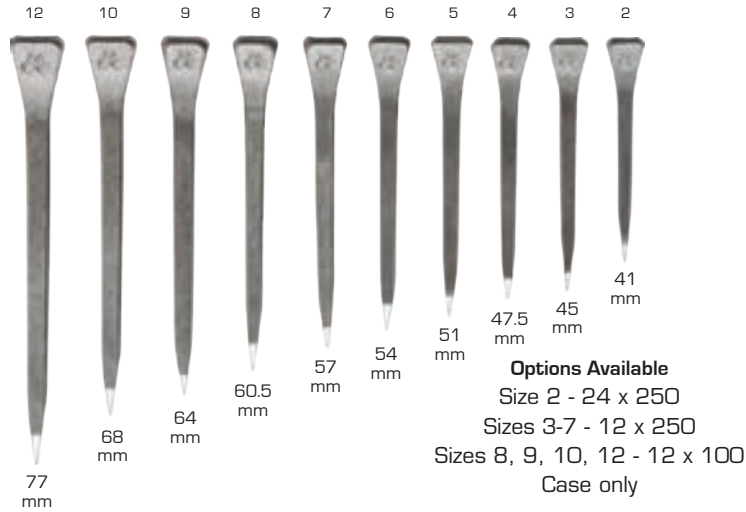

- Extra length with slim design
- Perfect for Concave, Equi-Librium and Eventer horseshoes

Options Available
12 x 250
Case only

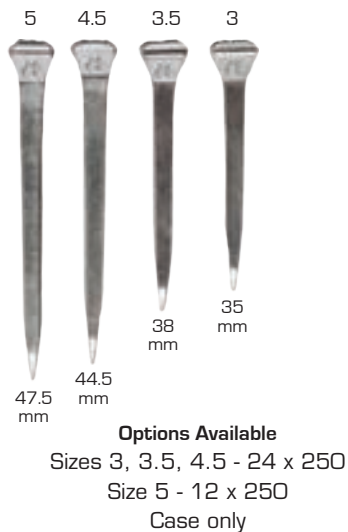

"E" Nails

European style nail for European and handmade shoes

Race Nails

For race horses.
 Good for thin-walled horses.

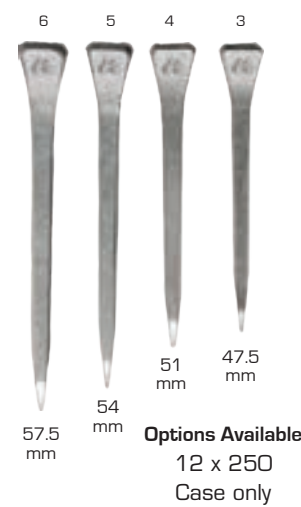

City Head Nails

For use with saddle horses,
 working horses and ponies.

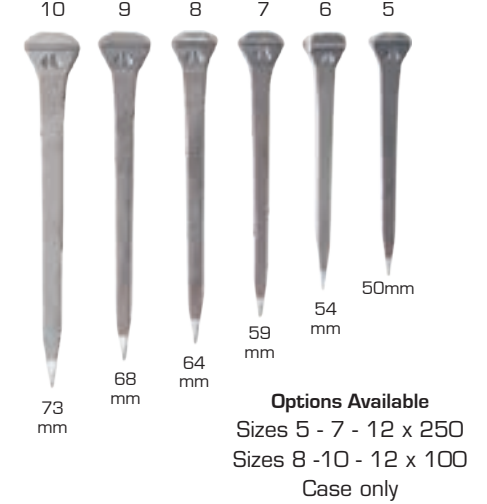

"E" Slim Nails

European style for thin walls
 and brittle hooves.

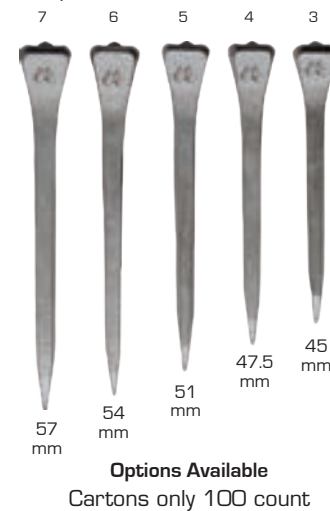

Regular Nails

The traditional regular nail is especially
 suitable for heavy, pack and working horses.

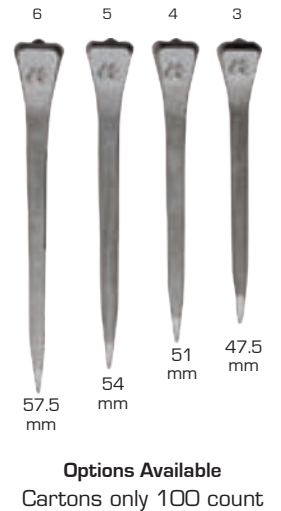

Road E Nails

The Road Nail design is based on the E and E-Slim nails with the addition of a
 carbide pin in the head to reduce wear. Available in E and E-Slim nails.

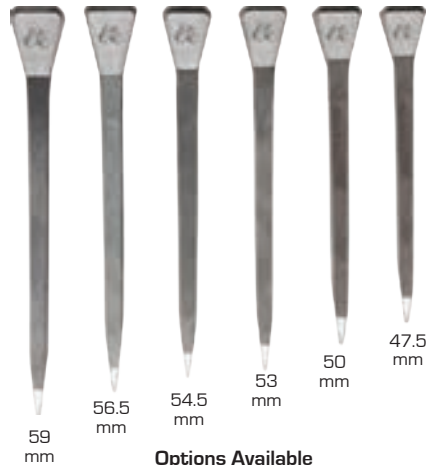

Road ESL Nails

Mustad MX Nails

For hand punched and European style shoes. Ideal for thin walled horses.

MX-70 MX-65 MX-60 MX-55 MX-50 MX-45

Options Available

Size MX45 - 24 x 250

Sizes MX50-70 - 12 x 250

PRO-FINISH by HELLER

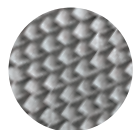

PRO-FINISH by Heller

Heller's multiglide cut delivers just the right amount of hoof removal leaving a show quality finish. Its unique overcut avoids clogging. Heller's smoothglide side removes the slightest amount of material; leaving an overall polished finish.

- Finishes smoothly
- Leaves no rasp marks
- Provides a show quality finish
- Preferred by champions

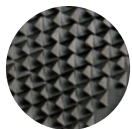

31.3.32114A

- # 31.3.32115A
14" Legend Rasp
- 100 % tested, inspected
 - Guaranteed to be tough
 - Easy to clean

Legend

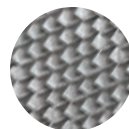

Features a larger tooth angle, resulting in a more open structure in the rasp. Well suited for softer, damper horn material which clogs a finely toothed rasp.

- # 31.3.32117A
14" Black Legend Rasp
- 100 % tested, inspected
 - Guaranteed to be tough
 - Easy to clean

Black Legend

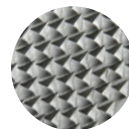

The Black Legend differs from the Heller Legend through the addition of a surface treatment that ensures the material is released from the rasp easier and makes it more resistant.

- # 31.3.32101A
14" Red Tang Rasp
- "The Red Tang rasp consistently performs to my expectations."
- DAN HAUSSMAN, FARRIER

Red Tang

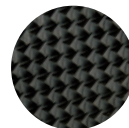

A finely toothed rasp that removes material easily and is well suited for rasping hard, dry hooves.

- # 31.3.32121A
17" Big Hoof Rasp
- Last long
 - Cut and glide easily
 - Offers a smooth finish

Big Hoof

An extra long fine-toothed rasp. Length makes this rasp a good choice for extra large hooves. Fine teeth make it ideal for dry, hard hooves.

- # 31.3.32102A
- Closer structure, ideal for rasping hard, dry hooves
 - 6 teeth per row
 - Ideal in dry weather conditions

Black Master

Small teeth with a more concentrated pattern for an efficient cut in dry environments or for harder hooves. The Black Master features a special surface treatment that prolongs the life of the rasp.

Nipper

Nipper performance sets the foundation for the overall success of your trim. The Mustad Premium Nipper features a unique Box Joint which is designed to maintain stability and accuracy through the long life of the tool. Mustad Premium Nippers are equipped with a precise cutting edge sharpness, tool strength, and durability. This nipper offers accurate cuts which reduces the amount of rasping required.

40.1.70020

Ergo-Clincher

The unique design takes stress of your wrists and hands while clinching nails. The ergonomic angle and jaw design provides the ability to produce a tight flat clinch for every nail cut. The Mustad Premium Ergo-Clincher sets and secures the clinch with minimum impact on the hoof wall.

40.1.70075

Pull-Off

This well balanced tool is as efficient as it is comfortable. The Mustad Premium Pull-Off is the very definition of form and function.

Through its innovative design, it delivers the mechanical advantage required for effortless removal of the shoe.

40.1.70060

Crease Nail Puller

Precision and Design are critical characteristics for a crease-nail-puller worth having. The fine, precise tip and the jaws make it easy to pull nails out of a variety of creases. The wide head design reduces the amount of force required when pulling nails.

40.1.70080

A strong brand, a strong history and wide variety of industry products - Mustad. You trust your horse's shoes and health only to the best brands. We provide the top lines of pads, boots, hoofcare health, prevention and nutrition products. The well-being of horses is what Mustad stands for and we continuously research the hoofcare field for the newest and best hoofcare products.

HOOF PAD

- Your "Must have" pad material to create comfort and protection
- Urethane-based, that sets in 30 seconds and sticks directly to a clean, dry sole
- Ideal with or without any kind of pads
- Optimal shock absorption, support and protection, enhancing the general condition of the sole, frog and hoof
- Sold in case of 12

90.195.200651200

HOOF PAD SOFT

- Extra Soft Hoof pad material for very sensitive soles
- t sets in 30 seconds and affixes to clean dry soles
- Can be used with any kind of pad
- It seals the pad from any debris or moisture getting in between the pad and sole
- Sold in case of 12

90.195.200630

HOOF PAD ZNO

- Soft hoof pad material injected with Zinc Oxide to help prevent thrush
- Sets in 30-45 seconds
- Provides excellent cushioning and won't get as hard as competing brands
- Bonds to the hoof and will not allow air or humidity to get to the sole
- Sold in case of 12

90.195.200631

HOOF REPAIR BLACK

- Adhesive designed for large and small hoof repairs
- Bonds to most shoes
- Affixes to a clean dry hoof wall
- Sets in approximately 1 minute and hardens within 5 minutes while maintaining flexibility to ensure natural hoof movement
- Hardens to black color
- Sold in case of 12

90.195.160602

SILICONE

- It gives good protection and coverage of the sole
- This silicone sets within 3 minutes
- Can be used with any kind of pad
- It prevents debris or moisture getting in between the pad and the sole
- Sold in case of 12

90.195.210603

SUPER BOND

- It sets in 30 seconds and sticks to a clean dry hoof wall for small repairs
- Create a custom shoe for horses
- Perfect to glue on cuffs for foals or use with foal extension
- Sold in case of 12

No-Snow Pad

The Mustad No-Snow Pad has a unique air cushion that compresses, then expands to push snow out of the hoof, preventing dangerous snowball build-up and improving winter traction. Also a, great choice to prevent mud accumulation. No-Snow Pads are durable enough to handle tough winter conditions, can be easily applied during shoeing, and can usually be used in multiple resets.

- Improved shape fits most hooves and horseshoes
- Improved color makes it easier to locate horseshoes when they are lost in the snow

The pads transfer weight from the hoof wall to the frog, which relieves pain instantly in cases of under run and sheared heels, quarter cracks, laminitis, and pedal osteitis. Using the pads will keep your horse serviceably sound, while helping to correct heel problems in the long term. Full Support Pads are available in small and full, as well as small and medium Bar Wedge configuration. They can be used with egg bars, straight bars, and open shoes and be reused if problems reoccur.

MUSTAD

High Performance Hoofcare Products

Thrush Buster®

So powerful it lasts for up to eight days without reapplication... even in the wettest, muddiest terrain. Stomps out thrush on contact. A single application relieves agonizing, crippling effects of thrush and dramatically reduces chance of reinfection.

Packed: 24 - 2.0 oz bottles per case.

90.248.90010

*Not sold in Canada

Tuff Stuff®

Hoof conditioner and toughener that's also a show quality cosmetic.

- **Strengthens brittle, shelly, mushy or cracked hoof walls**
- **Protects scuffed toes and guards against fungus, caustics and bacteria**
- **Maintains the hoof wall's natural moisture level**

Packed: 12 - 7.5 oz bottles per case.

90.247.90001

Hoof Shield

An all-natural hoof sealant formulated to maintain natural moisture level of the hoof. It forms a barrier to prevent brittle cracking in hot, dry conditions and soft, mushy hooves in wet conditions.

90.54.65015

Avail. 8 oz dauber bottle 12/cs

Hoof Marvel

All-natural hoof moisturizer that works incredibly fast to restore moisture to the foot. A real friend to the farrier who wants a workable hoof when conditions are extremely dry.

90.52.592033 1 gallon refill bottle 4/cs

90.52.592034 Avail. 32 oz spray bottle 12/cs

DELTA

High Performance Hoofcare Products

Delta Hoof Boot

The Delta Hoof Boot provides all-terrain protection for both occasional and everyday riding. Easy to put on and take off, it stays securely on the foot. The high-performance urethane outsole provides maximum durability and shock absorbtion while providing traction similar to an unshod foot. Drainage holes keep the feet dry.

- Foam filled back flap and collar for added comfort and protection
- Raised inner rim offers built in sole relief
- Industrial grade velcro fasteners
